Positive: Punctuality, Quality, Responsiveness, Value

It was great, I got several quotes and Dave with Energy Windows LLC had a best price, as well as the fastest projection of when he would be able to get it done. Other quotes were February and beyond, and I was getting them in December. He had my windows in within 3 weeks, and they look amazing. I no longer feel the heat seeping out when I stand in front of them, and I've gone from using 3 space heaters while working at home to 1, and retaining the same temperature. I would definitely recommend Dave and Energy Windows LLC. I'd also mention they came in \$2000 under the nearest bid from Home Depot, and for much better windows with full screens and lots of features, plus a 30 year warranty. A very good experience and I will be hiring them again for other projects.

Positive: Punctuality, Quality, Responsiveness, Value

David and team provided better than promised service, completing a 20 window replacement in 1 day. The workmanship was high quality and David even went out of his way to fix a few small problems around the windows. Our house is brighter and newer looking as a result of the window replacements. My wife and I would highly recommend Energy Windows LLC.

Positive: Punctuality, Quality, Responsiveness, Value

I highly recommend using Energy Windows LLC over a corporate entity. David & his crew went above and beyond with the window replacement work at my house. They used quality construction material for the trim and wrap. I had custom double-pane trapezoid windows, two sliding glass doors and 11 eleven windows installed in less than three days. The crew was fast, efficient and organized. I was very impressed by the cleanup process as they didn't leave a speck of dirt or dust. The work they did made my house feel like a new home and exponentially reduced the amount of draft that was once an issue from our leaky, single pane windows! Afterwards, David took the time to follow-up and make sure that I was 100% satisfied with the work.

★★★★★ 9 months ago

Outstanding work. Dave and his team replaced 29 windows in just two days in my house in Ashburn. At first, I was skeptical about finishing that many windows in that short period of time. Well, they pulled it off.

The crew was quite professional and respectful. At the end of day 1 and day 2, they cleaned everything and my wife could not even tell they were there after all finished! I have negotiated with Window Nation and Home Depot plus tons of research from my end. Energy Windows beats up both in pricing and overall quality. Highly recommend.

Excellent craftsmanship and high quality products. The crew did a fantastic job and went above and beyond what I expected. I had purchased some casing for the inside of the bathroom window and he upgraded it to a more suitable trim for no extra charge. If you need replacement windows in Front Royal, VA Dave Udstuen and Energy Windows are a safe bet!

We recently had Dave replace all the windows in our house. We had an odd job since all the windows on the ground floor were casements with a very wide brick-mold on the exterior of each window. Dave sat down with us and helped us analyze all of the options for replacements—even down to colors. He was very responsive to our questions and helped us choose beautiful windows. The installation was done by his team who were very friendly and incredibly professional while on site. The attention to detail was incredible. I give Dave Udstuen and his team my highest recommendation. Thanks Dave!!!

Friendly sales and service personnel. Reasonable price quotes for quality windows. Good communication every step of the process. We really couldn't be happier. Since we have quite a few windows, it was important to us that we were able to break the job into phases. We were able to work out a plan that met our budget.

My handicapped son broke one of our windows and I saw the Energy Windows sign in a yard nearby. Upon calling, Dave said he could come out right away to fix the window! Thank you Dave! He replaced the window right away and now we can run our air conditioner again. Energy Windows was prompt, installed a beautiful window, and left a clean work space.

★★★★★ 11 months ago

Absolutely 100% amazing. After botched home improvements with box stores, this was an incredibly refreshing experience. David did everything he could to ensure we were happy with our installation, and remain happy after the installation was completed. HE EVEN REFILLED OUR CATS WATER DISH WITH FRESH WATER WHEN THE WINDOW JOB WAS COMPLETED. Not only was his customer service and friendliness beyond reproach, his craftsmanship was remarkable. It's very obvious he has a passion for what he does and takes great pride in his work. Highly Highly Highly recommended.

Energy Windows LLC was one of a few estimates we got for replacement windows for our home in Harrisonburg, Va. The owner, Dave Udstuen came to our home at a time that was reasonable for our busy schedule, and was by far the friendliest and most informative contractor that we met. He was reasonably priced, installed the windows efficiently, and was always open to any questions we had. We really like working with him and will be recommending him to our friends in the neighborhood.

★★★★★ 2 years ago -

I contacted Dave at Energy Windows to replace all of the windows in our 30 year-old house. The existing windows were loud and drafty and repairing them had become more difficult over time since parts were hard to find and increasingly expensive. We had 16 windows that were all odd sizes and were a unique style.

The entire process was quite straightforward. Dave scheduled an initial meeting right away and brought a variety of product brochures and samples. We discussed pricing options, features, styles, and eventually settled on an approach that fit our budget and kept with the style of the house.

The ordering process was simple and Dave kept us aware of delivery and install dates.

On the dates of the install, the Energy Windows crew showed up on time and were professional and courteous. There were no surprises and despite the house having some very unique construction features the replacement windows were installed quickly.

I checked in on the progress out of curiosity and everything looked to be executed properly. The install took two days and when we got some storms it was obvious overnight which rooms had new windows and which were original.

All of the finish work was clean and the crew took great care with drop cloths and masking. The site cleanup between days and after the project was outstanding.

Overall, I highly recommend this company.

★★★★★ a year ago -

When we met with David to get an estimate for window replacements, we were impressed. He is friendly, informative, and knows his products.

The windows were installed yesterday. The crew of two installers arrived in the morning a little earlier than scheduled, immediately went to work, covered all the floors before they started deconstructing the old windows, installed eight new windows, cleaned up everything and were finished by early afternoon. David stopped by to check each window thoroughly, and answered our questions about the window tilt-out and locking features.

We are very satisfied with our experience with Energy Windows and will recommend them to anyone needing home improvements.

★★★★★ a year ago

I researched windows for weeks and talked with several contractors. Ultimately, I chose Energy Windows because of the quality of the product, the price and the \$40 triple pane upgrade. The windows arrived ahead of schedule and were quickly and efficiently installed. Shortly after the windows were installed, my house was pressure washed. No water was detected around any of the 24 new windows. Dave Udstuen, the business owner, kept me informed all along the way, from the placement of the order, scheduling the installation, progress of the work and it's completion. I'm very happy with both the product and Energy Windows personal and business practices. I would readily recommend them to anyone looking for replacement windows.

I had a house built in the 50s that needed new vinyl replacement windows. I asked four different companies for estimates. Dave not only came in at the best price (half the cost of others), but he was extremely responsive and gave an estimate in the quickest amount of time. He did the job in the time period he said he'd do it in, and did an outstanding job. The house never looked so good! I'd highly recommend this company. Nothing but great things to say about him. (I own a number of houses and have worked with many handymen and contractors. Dave was one of the best to work with.)

I contacted David Udstuen with Energy Windows LLC after he installed replacement windows a year which has made a significant difference on the installation and utility bill of the home. We had them Insulate our attic yesterday. Due to my schedule David was able to accommodate me on a Sunday. Already I have noticed a difference and I again enjoyed his commitment to helping me. Before the windows last winter my utility bill was almost 600\$. It is down to half and hoping with this will also help drop it down.. thank you David..

★★★★★ 2 years ago

We are very pleased with the windows Dave U. installed for us. He did a wonderful job, the installation looks great and the windows work perfectly. Dave took the time to explain all of the features of the windows before we placed our order and went over everything again after the installation to make sure we were familiar with all of the many features of our new windows. Dave and his crew did an excellent job of cleaning up when the work was done. They were highly professional and the final installation looked like the custom work that it was. Dave maintained excellent communication with us through-out the project and took a personal interest in getting the job done quickly and ahead of schedule. If you need new windows Dave at Energy Windows LLC is the person to call!

★★★★★ 2 years ago

Dave Udstuen of Energy Windows LLC installed 3 windows for me on 1st February 2018. I could not be happier! The windows look beautiful and are keeping the warmth in and the cold and wind out of my two-bedroom condo! My previous windows (the originals) were completely inefficient and poorly installed. Dave is personable and willing to explain the details of what needs to be done. In short, I found Dave to be honest and pleasant and his proposed windows for my needs, a quality product. My research into installers and windows paid off: both Dave Udstuen and my Edison Vinylmaxx double-hung windows are living up to their great reputations! Thank you Dave!

Wow! I have a house overlooking the Shenandoah River and I wanted 8 large bay windows installed. I wanted to have a fantastic view. I am a very educated shopper. I had 4 different companies out to my home over a 3 week span. All of them were very professional but some were to professional and I felt like I was being sold a product. When David came out to see me from Energy Windows LLC, he did not pressure me, he just educated me on what the best choice for me would be.

I decided to contract David for his sincerity, knowledge of the product and belief that he would perform honestly. Oh, and his price was about \$1,000 less expensive.

His crew showed up right on time. David was there the entire time making sure all windows were installed correctly.

I am so happy I chose Energy Windows, LLC

6 reviews

★★★★★ 2 years ago - 📅

Energy Windows LLC did a great job installing a new door and storm door at my house. Dave Udstuen took the time to meet me at the door seller, offering seasoned advice to pick decent quality doors and knob and lock sets to fit my budget. I arrived early to the store, and Dave and his assistant for this job were there waiting for me.

At my house they got right to work, took the time to correct some small structural issues around the door frame in my older house, and discussed the decision points with me so I knew what they were doing and could make informed choices. They struck a nice balance between "we have years of experience" (which was clear to see) and "it's your house; your opinion matters."

They paid a lot of attention to detail, and also cleaned up as they went. They had to come back another day to finish up, stayed in touch to schedule a time that worked for me, and again arrived early (I got there 20 minutes early, and they had been there for 5 minutes).

I have two professional relationships with Dave. As my customer where I work as a graphic designer at National Media Services, Inc., Dave is particular about the design of his marketing pieces and puts a lot of thought into his message. He shows the same exacting attitude about, and attention to, his own work.

Positive: Professionalism, Punctuality, Quality, Responsiveness, Value

Dave and his team did an excellent job installing all 14 windows in our home. They showed great attention to detail in their work and repaired damage in 2 of our windows that were rotted and leaking. They were very efficient while still taking time to ensure everything was done correctly. They even wrapped our doors to help prevent any further damage to our wood frame. After getting many quotes for this big purchase, we are so happy we went with Dave and his company. He worked with us on our budget while still making sure we had quality windows that will last us for years to come. He also used top of the line products for installation and finishing. We recommend Energy Windows, Dave, Edgar, and his team. They were great to work with from start to finish. Support local business and pick Energy Windows!

Dave was great, from coming out for an estimate to the final minutes of the installation. He was informative but not pushy when we were trying to decide what to buy. He was involved in all aspects of the installation. He came with a crew he obviously knew and trusted. They all worked quickly and efficiently. They spray foamed and insulated around the windows before the final trim work. They used drop cloths and covered everything inside. My house is as clean as it was when they arrived, cleaner actually because they disinfected everything they touched. Most of the work was outdoors but when they were inside they were SO careful and clean. They went above and beyond what we expected. This was a big purchase for us and worth it.

I was very impressed with the work, cleaned up and used drops clothes and plastic to protect the inside and outside. If you weren't told new windows were installed you would think they were original to the home as they install was so clean. The replacement windows have completely changed the view from inside, we didn't know they old windows obscured the view so much and how quiet the house is now. The installers were very professional and thorough. Thanks Energy Windows LLC for everything.

Dave communicated and continued to updated me as I was waiting for my windows to come in. He made an appointment immediately once the windows came in and was flexible of when the installation worked best for me. He showed up and got a 8 window project done in a day. Dave and his team were professional, quick, and clean. His personality and friendliness made this process so easy. My windows came out amazing and I will definitely be using him for my other projects in the future.

We have a tendency to procrastinate when doing big projects to our house. So relieved we went with Energy Windows LLC to replace our 30 year old siding on our home. Dave's team worked together efficiently and finished in one day. They paid attention to detail from removal to installation to clean up. Dave came on-site to review the work done and made sure we were pleased with the project. We are looking forward to having our windows replaced by them in a few months. If you need your siding replaced, you will not be disappointed if you choose Energy Windows LLC. Five stars.

Over the past 3 years we had discussions about replacemrnt windows with 3 home improvement contractors and with 1 well-known window specialty contractor, but none of those worked out for various reasons. Wish we'd have called EW first. The 5 windows and 2 sliding doors they replaced for us were timely and reasonably priced. Dave communicated with us during the whole process, delivery and installation went smoothly, and they cleaned up after themselves 100%. Then he gave us a tutorial on how to do the tilt wash (including the reasons to do it a certain way - easier to remember how if I know why). If you need windows or sliding doors, I highly recommend Energy Windows. Just skip the rest and go right to them. Thanks Dave & your awesome team!

Our home was in desperate need of 20 replacement windows. We inspected windows installed by David and Edgar in a neighbor's home and were impressed with the install and outside wrapping of the windows. David brought samples of the windows to our home and we chose the triple paned version to keep the outdoor environment outdoors! The heat from the sun's rays was greatly reduced. Looking forward to stopping the heat from escaping from our home this winter from the cold temperatures and winds. David and Edgar are professionals and extremely responsive to any issues such as a failed lock installed by the manufacturer. David kept us updated during the ordering, delivery and installation process. We felt that being a local company instead of a nationwide company that this would always be the case. You will also feel secure having them in and around your home for multiple days during the install. We highly recommend considering Energy Windows, LLC when replacing your old windows.

We got multiple quotes to replace our windows from big chain stores and Energy Windows. Dave from Energy Windows came to our home with sample windows and spent time answering all our questions. Between his presentation and knowledge I was ready to use his services. We had to wait for the windows to be built, locally, but during this time Energy Windows was periodically in touch giving us timeframes.

Installation day arrived. Dave and his crew arrived on time each day with everything needed for work each day. They cleaned up behind themselves and took pride in their work like they were working on their own homes.

After the installation was complete Energy Windows did a walk through to address any issues and to ensure we were pleased with the work. A couple weeks of enjoying our windows, we received a hand written card in the mail thank us for the business.

Energy Windows is a professional company with local ties and excellent communication that I would recommend to anyone.

Upon first meeting with David and his wife, I knew I had made a good decision. The whole process was flawless and professional. I wanted a more energy efficient sliding glass door installed to replace the original French door in my dining room. I also needed a new entry way garage door to replace the damaged original door. David and his team did a fantastic job installing both new doors. The sliding glass door slides like butter! The energy efficient sliding glass door has made such an improvement already.

I was shown how to operate the doors correctly and I appreciated the time they all took to make sure I was satisfied with their workmanship. I was more than satisfied and I will use David and his team for future projects.

Thank you!

Positive: Professionalism, Quality, Responsiveness

I originally found Energy Windows LLC through Google searches. Their reviews convinced me to call David. However, talking with David is what convinced me to put my house in his hands. I had received three quotes already for a complete siding and window replacement on my home. I was disappointed with the lead times (6+ months up to 12+) and what felt like a lack of vision as well as personal customer service. Enter David. After talking to him for a few minutes I realized he is not only passionate about his product and craft, but also about taking care of his customers. Upon seeing our house, he had some awesome insights into understanding what our vision was and how to make it happen. He has really good taste and incredible attention to detail and made suggestions that made a huge difference in the look of our home. Out of all of the quotes we got, David was the only person who seemed genuinely excited about what he can provide and how updated and energy efficient our house will become. The window and siding crews are wonderful. They are very careful with the property, clean up after everyday and are very friendly answering any questions I had. David and Yer are very responsive and I always felt like I had their attention. This project was a large one and was nerve wracking until I found Energy Windows LLC. From then on it was so smooth and we truly had an exceptional experience. I recommend them to anyone.

Positive: Professionalism

Two windows in our home in Basye had lost their seal and were quite clouded. After looking on the Basye community Facebook, page David and his company, Energy Windows LLC, were highly recommended. I contacted them they came out, showed me what they offered, and we contracted with them for the replacement of the two windows. I could not be more satisfied. Their work was very efficient and very professional. I will certainly be using them when we have to replace the other windows. I would also add we did get estimates from other providers, and I always believe that the phrase "you get what you pay for" is one of the truest statements ever uttered. David was not the least expensive and he was not the most expensive, but his price was such that we knew the value of the product we would be receiving, and we also knew the installation would be professionally managed. Our home isn't a "weekender" home, it is where we live, and we firmly believe that investing in it is one of the most important things we can do. I highly recommend David!!

We received several quotes for new sliding glass doors for our family cabin @ Bryce Resort. Dave and Yer were our top choice for many reasons. They were very friendly and explained in detail what they would do to replace the doors. We were impressed with their knowledge and felt very comfortable moving ahead with them as our contractor.

Once the doors arrived they set up a date for installation. The job was completed quickly and efficiently. Dave and Yer then spent an hour with us explaining all the features of the doors and doing final tweaks to the frames.

We would highly recommend using them for door replacement and when the need arises we would use them again!

I would give Energy Windows 1000 stars in review if it was an option! David, Yer, and their crews are wonderful to work with. I wish I had known about their business when we replaced our roof in 2018, but we are now an Energy Windows customer for life! We have had our windows replaced, house wrapped, siding replaced, new gutters and our front door repaired. Even when a minor miscommunication occurred with our gutters, David ensured it was fixed the very next day! They treat their customers like family and are 100% honest and transparent from cost, to timeline, and expectations. Whatever I dream up or ask for comes to life with their team. I am already planning our next project with David & Yer!

When you see a place with this many five star reviews, you might be skeptical, but let me tell you it's true! And we know that not all window installers are the same — David's team was incredible. They cleaned up everything better than it was. This was a big concern of ours since we have a home from 1932 and a three year old who likes to roam. The windows are high-quality, and we immediately felt the difference with an improved indoor climate. The house stays warmer longer, and we are now ready for the winter!
